**URC** Utility Relay Company

Smart 1-Line™

Based on a rugged industrial computer and sporting a modern solidstate drive, and a 21.5" high-definition touchscreen, the Smart 1-Line™ is URC's modern turn-key solution for monitoring your AC-PRO® and AC-PRO-II® networks at one convenient location. It displays a field-configurable electronic 1-Line diagram with breaker readings, status, and more. For more detailed information, simply tapping (clicking) a breaker symbol launches built-in InfoPro-AC software.

The Smart 1-Line™ features include:

- ❑ High Definition 21.5" Color Touch Screen
- ❑ Ships with software pre-installed
- ❑ Designer and Run-Time Mode
- ❑ Allows Remote Breaker Tripping
- ❑ Determine Substation Status at a Glance
- ❑ Field Configurable to Match 1-Line Drawing
- ❑ Designed for Switchgear or Control Room
- ❑ RS-485 Communications to AC-PRO® & AC-PRO-II®
- ❑ Software for full Modbus Communication
- ❑ Ethernet Port for Modbus Communications to SCADA System
- ❑ Display one-line diagrams, waveforms*, alarms, currents, power, energy, breaker open/close status, and more.

AC-PRO-II with updated firmware required to view waveforms
AC-PRO-II with VDM required for voltage, power, and energy data
AC-PRO with PT module required for voltage, power, and energy data

COMPATIBLE WITH AC-PRO-II & AC-PRO
